Edward J. Radlo, Reg. No. 26,793

Sir:

Pursuant to the provisions of 37 CFR § 1.56 and §1.97-§1.98, Applicants hereby submit patents, publications, and other information listed on the enclosed Substitute 1449 forms of which they are aware, which they believe may be material to the examination of this application and in respect of which there may be a duty to disclose. This IDS is being filed simultaneously with a Request for Continued Examination (RCE) under 37 CFR § 1.114, as a Notice of Allowance was mailed by the USPTO on November 28, 2007.

The first page of the four enclosed 1449 forms is a resubmittal of the 1449 that Applicants mailed to the USPTO with an Information Disclosure Statement on November 20, 2007. Said IDS was not considered by the USPTO prior to the issuance of the Notice of Allowance on November 28, 2007. The second two pages of the enclosed 1449 forms are resubmittals of the 1449's that Applicants mailed to the USPTO with an Information Disclosure Statement on December 3, 2007. Said IDS was likewise not considered by the USPTO prior to the issuance of the Notice of Allowance on November 28, 2007. Applicants therefore request that the Examiner consider the references listed in these two IDS's now. Applicants are not resubmitting paper copies of any of these references at this time, because Applicants submitted said copies to the USPTO with said information Disclosure Statements on November 20, 2007 and December 3, 2007.

The fourth page of the enclosed 1449 reports a Notice of Allowance from a related U.S. patent application that has been published. As this item is from a published patent application, Applicants believe that no copies of any documents are required to accompany this citation. 37 CFR § 1.98. Applicants are bringing this Notice of Allowance to the attention of the Examiner pursuant to McKesson Information Solutions v. Bridge Medical, case 2006-1517 (Fed. Cir. 2007), which was recently decided by the Court of Appeals of the Federal Circuit.

While the information disclosed in this Information Disclosure Statement may be "material" pursuant to 37 CFR § 1.56, submission of this IDS is not intended to constitute an admission that any information referred to herein is "prior art" for this invention unless specifically designated as such.

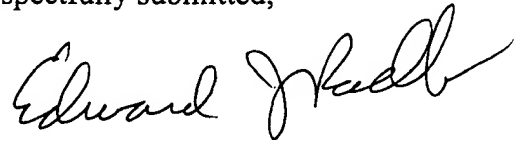

In accordance with 37 CFR § 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR § 1.56(a) exists. It is submitted that this Information Disclosure Statement complies with 37 CFR § 1.98 and MPEP § 609, and the Examiner is respectfully requested to consider the listed information.

Applicants believe that no fee is due other than the RCE fee, because this IDS is being filed concurrently with said RCE. However, should an additional fee be due, the Commissioner is hereby authorized to charge our Deposit Account No. 19-3140. This sheet is being submitted in duplicate.

Respectfully submitted,

date of signature:
